

Seasons for Growth Companion Training for the Parent Program

The *Seasons for Growth* Parent Program builds on the philosophy and strengths of the *Seasons for Growth* programs - innovative grief and loss education programs for children, young people and adults that use the imagery of the seasons to illustrate the experience of grief.

It provides an opportunity for parents to consider the experience of death, separation or divorce from the standpoint of a child or young person and to learn about ways to support their children.

The program takes the child's perspective, providing parents with the space to discuss and learn how to care for and nurture their children following these significant life changes.
